FLEX **HAT**

- Stylish dinner table light
- To be used at tables with a 2m diameter
- Suitable for all FLEX models

The perfect accessory for Gala dinner table or glare free outdoor light applications. Due to it´s special designed reflector the light- throwing diameter reaches around 2m, ideal for table illumination while showing a nice deco effect at the same time, due to the mix between reflections and shadings.

The FLEX HAT transforms the fixture into a stylish table dinner light. Developed to be used for tables of 2m diameter

„The high-quality appearance of the „HAT“ allows me to use the luminaires in close proximity to the audience and therefore include the spectator even more closely in the action and let them become part of the light show.“

Flo Erdmann ,
Freelance lighting designer

Suitable for all FLEX versions
